

In the contemporary era, the traditional education is merely bringing the degrees and the certificates. It does not seem to provide employability to the students.

The students need to be equipped with certain skills and knowledge so that they can be employable.

In the present global changing scenario, besides the routine curricular and extracurricular activities, it is the time to motivate, encourage and prepare the students capable of appearing for the various competitive examinations.

In the year 2015-16, the college developed

**Milliya Study Circle** (now Ahmad Bin Abood Career Education Centre).

By means of this centre, students are motivated and provoked to appear for the various competitive examinations, such as MPSC, UPSC, STI, SSC, Banking, Railway Recruitment Board etc.
